Sequence 143, Application US/09816763

Sequence 143, Application US/09816763

Patent No. US20020110814A1

GARDERAL INFORMATION:

APPLICANT: Remard, Patricia

APPLICANT: Remard, Patricia

APPLICANT: Remard, Patricia

APPLICANT: Art, Mariel

TITLE OF INVENTION: DETECTION AND /OR THE SCREENING, THE

TITLE OF INVENTION: PACTORS

TITLE OF INVENTION NUMBER: 2001-03-23

CURRENT PILING DATE: 2000-03-24

NUMBER OF SEQ ID NOS: 150

SEQ ID NO 143

SEQ ID NO 143

LENGTHA: 31

THORY HAVE THE TELEMENT OF THE SCREENING THE

US-VB45-COLAN-8

Sequence 8, Application US/09845020A

Publication No. US20030022850A1

GENERAL INFORMATION:

APPLICANT: Treco, Douglas A.

APPLICANT: Selden, Richard F.

ITILE OF INVENTION: Genomic Sequences for Protein Production

ITILE OF INVENTION: Genomic Sequences

CURRENT FILING DATE: 1999-62-05

PRIOR APPLICATION NUMBER: US 60/084,649

PRIOR PLING DATE: 1998-05-07

NUMBER OF SEQ ID NOS: 8

SOFTWARE: FastSEQ for Windows Version 4.0

SEQ ID NO 8

LENGTH: 14

ITYPE: DNA

PRATURE:

NAME/KEY: Misc_feature

NAME/KEY: misc_feature

Sequence 7, Application US/09802807

Patent No. US200100340441

GENERAL INFORMATION:

APPLICANT: Heartlein, Michael W.

APPLICANT: Selden, Richard F.

ITILE OF INVENTION: GENOMIC SEQUENCES FOR PROTEIN PRODUCTION AND DELIVERY

FILE REFERENCE: 07236/016001

CURRENT APPLICATION NUMBER: US/09/802, 807

CURRENT APPLICATION NUMBER: US/09/802, 807

FRICK APPLICATION NUMBER: 0/094, 663

PRIOR FILING DATE: 1998-05-07

NUMBER: OF SEQ ID NOS: 7

SEQ ID NO 7

SEQ ID NO 7
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               ö

TITLE OF INVENTION: DIAGNOSTIC POLYMORPHISMS FOR THE TGF-BETA 1 PROMOTER TITLE OF INVENTION: DIAGNOSTIC POLYMORPHISMS FOR THE TGF-BETA 1 PROMOTER CURRENT APPLICATION NUMBER: 0.003-06-24
PRIOR APPLICATION NUMBER: US 60/220,583
PRIOR APPLICATION NUMBER: PCT/US01/23368
PRIOR APPLICATION NUMBER: PCT/US01/23368
PRIOR FILING DATE: 2001-07-25
NUMBER OF SEQ ID NOS: 6
SOFTWARE: Patentin version 3.1
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              .
                                                                                                                                                                                                                                                                                                                                                                                  TYPE: DNA

TYPE: DNA

ORGANISM: Homo sapiens

FEATURE:
NAME/KEY: misc_feature

LOCATION: (11)...(11)

OTHER INFORMATION: n=any nucleotide

FEATURE:
NAME/KEY: variation

LOCATION: (6)...(6)

OTHER INFORMATION: SNP replaces Y with a G at this position

i Sequence 1, Application US/10342948

i Publication No. USC0040253591A1

i GENERAL INFORMATION:

APPLICANT: Harrington, John

APPLICANT: Jang, Li

TITLE OF INVENTION: COMPOSITIONS AND METHODS FOR MAKING

TITLE OF INVENTION: COMPOSITIONS AND METHODS FOR MAKING

TITLE OF INVENTION: MUTATIONS IN CELL LINES AND ANIMALS

FILE REPRENCE: ATTX-004CPCN3

CURRENT FILING DATE: 2003-01-15

PRIOR APPLICATION NUMBER: 10/277612

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          Sequence 1, Application US/10342761

Sequence 1, Application US/10342761

Publication No. US20040253727A1

GENERAL INFORMATION:
APPLICANT: Harrington, John
APPLICANT: Jacken, Paul David
APPLICANT: Jacken, Paul David
TITLE OF INVENTION: COMPOSITIONS AND METHODS FOR MAKING
TITLE OF INVENTION: COMPOSITIONS IN CELL LINES AND ANIMALS
FILER REFERENCE: ATX-004CPCM2
CURRENT APPLICATION NUMBER: US/10/342,761
CURRENT APPLICATION NUMBER: US/27612
PRIOR PILING DATE: 2003-01-15
PRIOR PLLING DATE: 2002-10-22
PRIOR PLLING DATE: 2001-10-22
PRIOR PLLING DATE: 2001-10-22
PRIOR PLLING DATE: 2002-07-15
NUMBER OF SEQ ID NOS: 1
SOFTMARE: FREESEQ for Windows Version 4.0
SEQ ID NO 1
LENGTH: 14
